

Andy Selmic is a Designer with a passion for working in wood, Andy creates a wide range of beautifully unique products from furniture to hand made wooden products

Including a stunning selection of totally unique hand made real wood veneer greetings cards.

Each unique design is individually crafted, then the sustainable real wood veneer is cut via laser and attached by hand by the use of 2mm foam pads to a piece of decorative paper which is placed behind the design to create a slight 3D effect the completed design is then attached to a premium quality 300gsm 5" inch square (12.7 cm x 12.7 cm) white card.

All completely hand crafted in Derbyshire.
